PROFILE

3+ years experienced and passionate web developer who has a track record of providing great technical solutions to clients business needs. Highly skilled in Frontend Development proven by the implementation of multiple web solutions with 1,000's of active daily users. His work ethic, unique skillset, and proven track record of exceeding client expectations has made him a desired project team member by many of his peers and managers.

EXPERIENCE

Lead Frontend Developer, KMS Project - Hitachi Consulting 2017 - 2018

Knowledge expert for all frontend decisions and questions. Mocked up and developed multiple custom and dynamic webpages using Adobe XD, jQuery, CSS, and HTML.

Frontend Developer, myHub Project - Hitachi Consulting 2016 - 2017

Created pixel perfect, mobile responsive custom web pages using Javascript/jQuery, CSS/Bootstrap, and HTML based on the designs of the clients UX designer.

Back End Developer, ROFO Project - Hitachi Consulting 2018 - 2019

Created and maintained api rest services for the project using C#, LINQ, Entity Framework and Unity. Managed the Data Model Configuration using SQL. Additionally assisted the front end developer with some redesigns using Angular 5.

Project Lead, myHub Project cont. - Hitachi Consulting 2018

Managed a continuation project this included Frontend Development, creating ETL packages with SSIS, building Power BI reports, setting up web jobs using C# and managing client relationship and expectations.

Shift Manager - Starbucks 2013 -2015

Full time job in college, worked 32 hours/week while managing a full engineering course load.

Process Engineer Intern - Ellwood Group Inc. 2015

A paid summer internship where I managed, and developed multiple corrective projects.
